ALL Languages

AI Solutions

Supply Chain Automation

Automate procure-to-pay with real-time intelligence to drive measurable operational efficiency.

Stock Forecasting

01 AI Demand & Inventory Planning

Optimize inventory and capital with high-accuracy insights that learn from trends to eliminate stock-outs and excess waste.

- High Accuracy
- Reduce Stock-outs
- Optimized Capital

Supplier Chase System

02 Automated PO Status Tracking

Save weeks of manual effort with AI-parsed tracking and instant delay flagging for total order visibility and efficiency.

- Days Saved
- Near-zero Lag
- Full Visibility

Container Tracking

03 AI Demand & Inventory Planning

Centralized visibility with dynamic ETA and automated alerts to manage disruptions and keep stakeholders informed via seamless ERP integration.

- Live ETA
- Proactive Alerts
- ERP Integration

Product Enrichment

04 AI-Powered Catalogue Quality

Automate catalogue quality by extracting attributes and standardizing data across platforms for scalable, high-accuracy product listings.

- High Accuracy
- Faster Enrichment
- Fully Scalable

Supplier Marketplace

05 Central Procurement Portal

A secure ecosystem for smart sourcing and RFQ management with real-time analytics to boost reach and ensure ESG compliance.

- Wider Reach
- Faster RFQ
- ESG Aligned

AI Solutions

Financial & Customer AI

Automate financial and customer workflows with 24/7 multilingual AI platforms for sales, collections, and claims.

AI Invoice Processing

06 Intelligent End-to-End Automation

Automate invoice capture to ERP posting with AI extraction, 3-way matching, and smart coding. Drive speed, accuracy, and compliant on-time payments.

- High Accuracy
- 3-Way Match
- Optimized

Sales Agent

07 AI-Powered Sales Automation

Our 24/7 AI agent qualifies leads, recommends products, and manages pipelines. Integrates with CRM systems to escalate high-value opportunities.

- 24/7 Lead Handling
- CRM Integration
- Higher Conversion

Accounts Overdue

08 AI Collection & Debt Management

AI automates debt recovery by analyzing risk and triggering personalized follow-ups, slashing DSO and bad debt through intelligent, segmented communication.

- Reduce DSO
- Risk-Based Priority
- Auto Chasers

Claims Reimbursement

09 Intelligent Claims Processing

AI streamlines the claims life cycle via automated validation and routing, accelerating payouts and providing real-time visibility while reducing manual effort.

- Faster Approvals
- Policy Compliance
- Real-time Tracking

Data Lake & Visualization

10 Enterprise Analytics & BI Platform

Unified data layer with real-time dashboards and cross-system insights ensuring policy compliance and faster processing time across all systems.

- Unified Data Layer
- Real-time Dashboard
- Cross-system
